COMPLIANCE

The AT-HA grommet is part of the IMAS-CONNECT™ modular adapter system and for the first time enables the direct integration of 3A or 4A inserts into an adapter grommet – without the need for an additional cut-out.

The AT-HA grommet is based on a large KT cable grommet. A robust polyamide body is integrated into the grommet. It is fully compatible with all icotek cable entry frames of the KT system and is supplied ready for use with a pre-assembled locking element.

In combination with the 3A or 4A insert sets and matching connector housings with M20 or M25 cable glands, the AT-HA grommet offers a compact, efficient and flexible solution for use in industrial applications.

The adapter grommet AT-HA is also compatible with numerous insert manufacturers (Harting, Ilme, Phoenix Contact, TE Connectivity, Weidmüller, Lapp, Amphenol, Molex, RS Pro, ...).

When space is limited, icotek offers a compact alternative with the single-row, split cable entry frame MIS with integrated 3A / 4A connection.

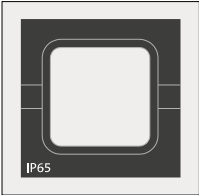

Specifications

IP rating (EN 60529)	IP54, IP55, IP64, IP65
Material	Elastomer Body: Polyamide
Flame class	UL94-V0, self-extinguishing
Operating temperature	-40 C° to 100 C°
Properties	silicone free, halogen free

Advantages & Benefits

- Space-saving thanks to integration of the connector in the cable entry frame
- Can be combined with existing KEL frame solutions
- No additional cut-outs are required
- Very easy to assemble
- Compatible with numerous insert manufacturers (e.g. Harting Han A)
- High degree of protection IP65 when plugged in

Product Types & Sizes

AT-HA	Part No.	39985
	EAN	4251269338953
	Package quantity	5
	Length	42 mm
	Width	41,5 mm
	Height	19 mm
	Mounting height	2 mm
