

KT-BL multi | Multi-hole cable grommets for the food industry

for cable diameters 1 - 8 mm / IP54

The KT-BL range of grommets are particularly suitable for use with the [KEL-ER-BL cable entry frames](#). The signal colour blue provides clear visual colour identification.

KT-BL multi-hole grommets enable a sealing of the cables with IP54.

When using double or quadruple grommets the cable density of cable entry frames and cable glands can be greatly increased. The multi-hole model range KT-BL multi is designed for cable diameters from 1 to 8 mm.

When installing the small grommets in multiple rows, the flat sides should be facing each other. This allows the flat sides to match up and provide a secure seal.
